

PROPHET NOAH AND THE ARK

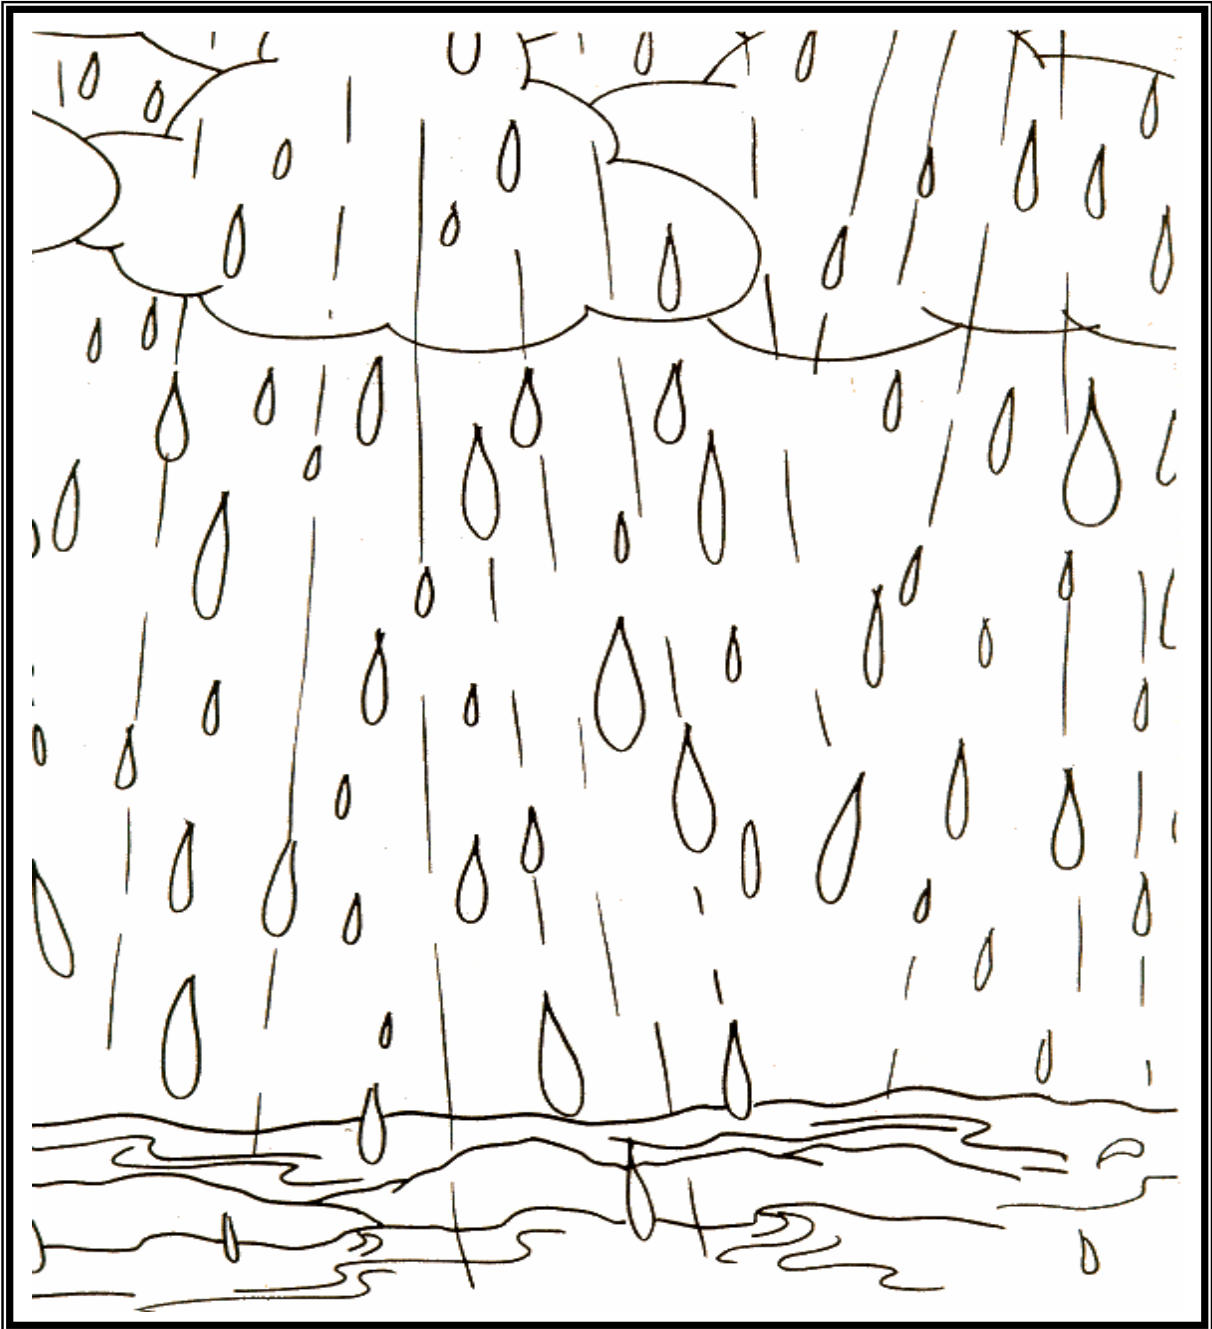

There was little goodness in the hearts of men. Prophet Noah tried to teach his people that Allah is One, but they just laughed at him. Sometimes they would throw stones at him.

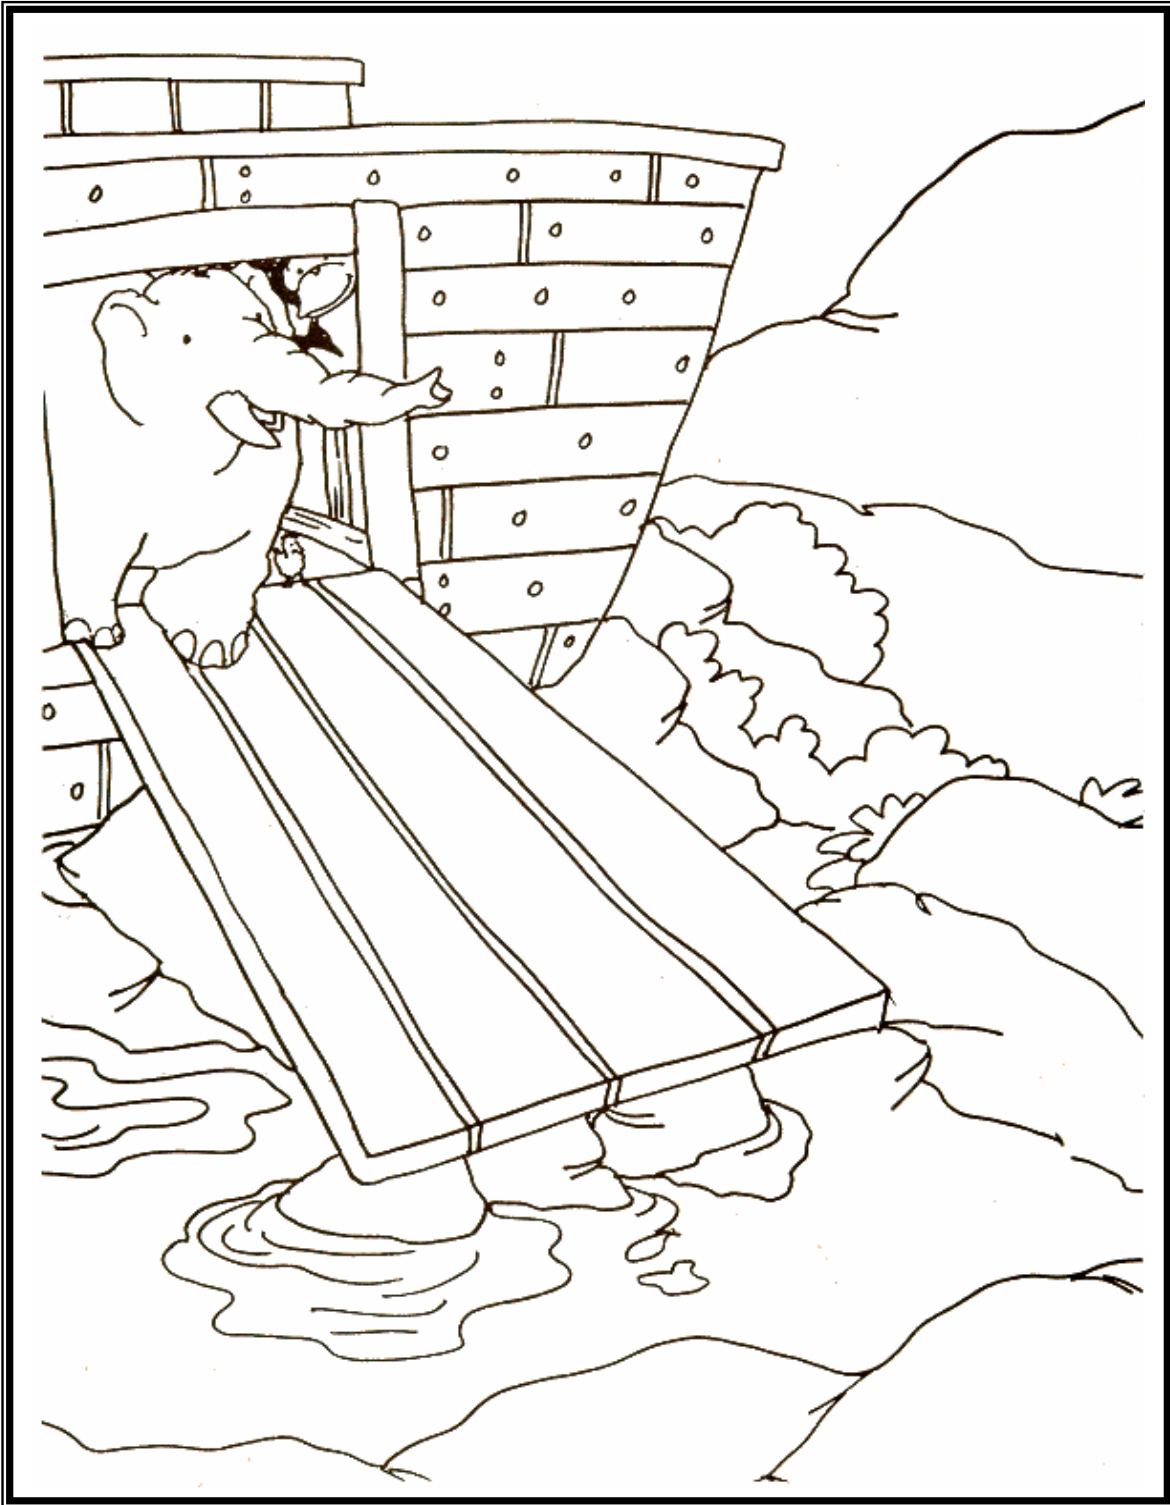

Prophet Noah complained to Allah that his people were not listening to him. Allah asked him to build a big Ark (boat).

Allah told him that he was going to send a great flood that would wash everything off the earth. When the Ark was ready, Allah told Prophet Noah to take in all the believers and two of every living creature onto the ark.

Then suddenly it started raining heavily and all the earth was covered in water. After many many days the rain stopped, and the earth swallowed all the water.

Then with Allah's command Prophet Noah the believers and all the creatures left the ark.

Prophet Noah and his believers started living on the earth again with Allah's blessings.
